

Exhibit 101

Every item is StockX Verified.

Shop on StockX with confidence knowing every purchase is StockX Verified. StockX Verified is our own designation and not endorsed by any brands sold on StockX.

Trust The Process

Our global team of experts uses a rigorous, multi-step verification process.

Condition

We only allow deadstock on our marketplace. That means every item, except refurbished watches and electronics, bought or sold must be brand new and never worn.

Packaging

Equally important as the product itself, our team ensures packaging meets the highest quality standards to deliver a brand new product.

Accessories

From the full list of accessories to all the additional add-ons, rest assured that your purchase on StockX will match any retail purchase experience.

**Quality Assurance**

A final check in our verification process, our QA experts ensure the product meets our high standards.

**Advanced Technology**

We leverage machine learning to assess product risk and ever-evolving embedded technologies within the products to enhance our verification efforts.

**Experience & Data**

There's no substitute for experience. We've inspected over 35 million items on behalf of our customers.

Hear From Our Team

In a community filled with inauthentic items, I have the opportunity to protect our customers and their hard earned money.

“

I have the privilege of teaching a new generation of authenticators, to help them succeed, and watch them grow. It's fulfilling to see.

Committed to Quality

Over the years, our team members have verified tens of millions of products.

We've compiled data from every product we've verified on StockX to build a database of elements that don't meet our standards. Our database is updated daily and constantly serves to keep our team educated and up to date.

Fighting Counterfeits

Like it or not, counterfeits are a problem for current culture goods on the secondary market. The quality of fake items has increased, as has the quantity of unauthorized items (often made in the same factory as the real items).

StockX has always been committed to fighting counterfeits and fraud on our platform. We remain one of the few marketplaces committed to physically reviewing 100% of the items that pass through our platform.

Our efforts have led to rejecting over 1.4 million items valued over \$400 million.

StockX will continue to invest in the people, processes, and technology to stay ahead of the fraudsters so we can improve the purchase experience for our customers.

Behind The Scenes

Our authenticators share a deep love and knowledge for the products and culture around our marketplace.

Is StockX reliable?

One of the reasons StockX is a safe place to buy is also our claim to fame: our verification process. The StockX verification process takes into account the condition of the item, any variations it might display against our internal standards, the state of its container and whether or not it contains all necessary accessories.

Items are verified on-site at one of our Authentication Centers by staff who receive constant training in order to remain industry experts.
